GRAVENHORST PLAST

**MATERIALS**  
DRAUGHTMASTER  
KEGS  
HEAT-PRESSED  
100 % UPCYCLED

### PROJECT CHARACTERISTICS

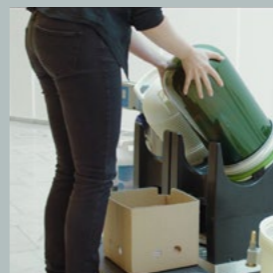

As a major construction company, CG Jensen prioritises sustainability. The company wants to respect nature's resources and therefore decided to find sustainable solutions for their interior that match to their values. In addition to being in line with their overall values, Re-Plastic's DraughtMaster tabletops have also been chosen because the material has the potential to be a catalyst for conversation about sustainability and upcycling.

PRODUCE > USE > PICK UP > TRANSFORM > UPCYCLE

Produce and fill the DraughtMaster kegs.

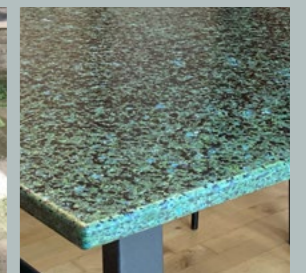

The beer is served and enjoyed.

Carlsberg picks up the empty DraughtMaster kegs.

Ready to be reused.

Unique upcyclable materials, used for new products.
